

Gentle clues for typst

Add some beautiful, predefined admonitions or define your own.

Example

```
#clue(title: "Example") [Test content.]
```

→ The default is a navy colored clue.

i NEW v0.4.0

Translations:

- French language titles: gc_header-title-lang.update("fr")

Colors:

- Colored borders by default.
- Added support for gradients: #clue(_color: gradient.linear(..color.map.crest))
- Breaking:** Removed string color_profiles.

Task Counter

- Added a Task Counter.
- Disable with #gc_enable-task-counter.update(false)

Task 1

Do

Task 2

Do

Task 3

Do

i Options

- Changing header title language with: gc_header-title-lang.update("en")
 - Accepts "en", "de" or "fr" for the moment.
- define header inset: #clue(header-inset: 0.5em) []
- define header title: #clue(title: "MyTitle") []
- define custom color:
 - #clue(_color: red) []
 - #clue(_color: (stroke: teal, bg: teal.lighten(40%), border: red)) []
- define the width: #clue(width: 4cm) []
- define right radius: #clue(radius: 9tp) [] (0pt to disable)

quote

Quote

Keep it simple. Admonish your life.

Headless

just add title: none to any example

Just a short information.

Define your own

```
// Define it
#let ghost-admon(title: "Buuuuuuh", icon: emoji.ghost , ..args) = clue(color: purple,
title: title, icon: icon, ..args)
// Use it
#ghost-admon[Huuuuuuh.]
```

Buuuuuuuh.

Huuuuuuh.
